

Chelsea's Court Time Reservation System Provides 24/7 Access – Dramatically Reducing the Frustration of Booking a Court Time

Your tennis booking problems are over!

Chelsea gives you two great ways to make booking court times easier:

In-house or Web-based solutions with the same goal:

- Reduce staff time spent on reservations, allowing your team to accomplish what it was meant to do...give more personal service to members, more often.
- Convenient 24/7 access to book/edit/cancel or review court time reservations.
- Eliminate duplicate court bookings.
- Enhance communications via built-in e-mail functionality.

The clubs that utilize our In-House Court Time system every day are thrilled by its benefits, including:

- Member access via the Internet, Touch Tone Telephone and touch screen terminals;
- The ability to display court times on

- local cable TV channels;
- Easily cut and paste court reservation information;
- Extensive member and play history reporting;
- Easy-to-use, easy-to-maintain systems; and
- Support of both Preferred Placement (lottery) and Confirmed Booking (first-come/first-served) systems (alone or combined).

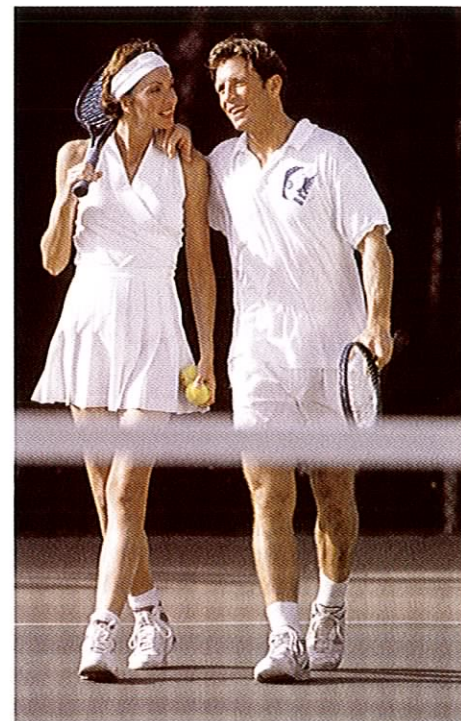

The clubs that utilize our Web-based Court Time System enjoy:

- Easy system access via the Internet for staff and members;
- Real-time booking and reporting;
- No equipment, software or long-term contract investments; and
- Optional Touch Tone Telephone interface via 800 service.

Chelsea Court Time System users book more than 100,000 transactions every day. Isn't it time your club and members had a better way to book court times?

Which system is right for your club?

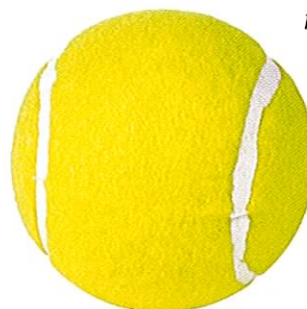

The Web-based version of Court Time is designed for small facilities with fewer than 10 courts and with

court time bookings on a first-come first-served basis. Larger facilities benefit from the more extensive in-house system.

About Chelsea

Chelsea Information Systems, Inc. has been providing court time reservation software to public and private facilities since 1997. Court Time and Point of Sale software - installed individually or fully integrated - boost efficiency, increase player satisfaction and enhance the overall club experience.
